Subject: Idaho BLM Geospatial Strategic Plan 2009-2011

The Idaho BLM Geospatial Strategic Plan for fiscal years (FY) 2009-2011 was approved and signed by the Idaho Leadership Committee on April 16, 2008. The plan consists of five documents:

- Main Strategic Plan – identifies purpose, mission, vision, values, governance, major services, plan development and monitoring
- Attachment 1: Operations Plan and Budget
- Attachment 2: Record of the Plan Development Process
- Attachment 3: Idaho BLM GIS Coordination Committee Charter (this is newly revised)
- Attachment 4: National States Geographic Information Council Standards and basic requirements for a successful GIS Program

The Idaho BLM Geospatial Strategic Plan will be implemented from October 1, 2008 to September 30, 2011. It will be monitored by the Idaho BLM GIS Coordination Committee, who will be developing the Action Plan for FY09 by October 1, 2008.

The plan was created at the request of Idaho BLM geospatial customers and users. It is meant as a guide for Idaho BLM geospatial services as progress continues in implementation of the National BLM Geospatial Services Strategic Plan of December 2007 and the National BLM System Architecture Design of 2004.

If you have questions please contact Cindy Lou McDonald, Supervisory Geographic Sciences State Coordinator for Idaho BLM at (208) 373-3998.

Signed
Gary R. Hunter
